#### APPLICATIONS

- Real time wireline and memory bore-hole logging
- Geovista and third party probes

#### FEATURES

- Wireline or Memory Probes
- CE Certified
- Remote controller
- Optional Wired controller
- Variable Capacity
- Variable Speed 0 to 32 m/min
- Compact Design
- Easy installation on site or in vehicle
- Depth Encoder
- Tension Load Cell
- Auto Level Wind
- Floating Disc Break
- Safety Torque Limiter
- 2 or 6 way slip ring
- Minimal maintenance required
- 2 Emergency stop buttons
- Larger Bespoke winches can be manufactured

The Geovista 500 series logging winches are DC electrically powered robust and reliable winches that won't let you down. Configurable by you with a capacity of up to 3000m of 3/16in cable.

#### OVERVIEW

High specification CE certified winches with variable cable capacity. Comes with integral depth encoder, cable tension gauge, electronic torque limiter, automatic level-wind, variable speed and direction control. Supplied with remote wired or wireless auxiliary controller. The winches are solid and dependable. They come with many operating and safety features as standard removing the need for tempting but expensive optional "extras".
